

Discover Creation Costa Rica Adventure Tour

March 3 – 12, 2017

(Optional Ministry Outreach March 12-20)

(For Families or Individuals)

This Creation tour, offered by Alpha Omega Institute, is not your ordinary “tourist” trip. Not only will you see many popular sights that nobody would want to miss, but you will also hear about and soak in the wonders of our awesome Creator! You will say, “This is why I came to Costa Rica!” You will be taken off the beaten track to experience the real Costa Rica with its volcanoes, beautiful rainforest environments and amazingly colorful exotic birds that many bird watchers long to see. Marvel at tropical mammals, fish, reptiles, and amazing butterflies such as the Blue Morpho that defy evolutionary explanations and point to the amazing wisdom of our Creator!

We have chosen many sites for you to explore that are not in typical tourist haunts. Enjoy a safe aerial tram over rainforests; take a boat trip to explore some fabulous mangrove swamps; explore the underwater world as you snorkel at the famous Caño Island; see fabulous waterfalls; relax at postcard-picture beaches; visit and/or hike in the fabulous Corcovado National Park area which is really off the beaten track and on the bucket list even of native Costa Ricans.

An experienced native naturalist will accompany us on the entire trip to supply us with fascinating information and point out what most of us would miss without that expertise. Typical reptiles and mammals seen include several species of monkeys, coatimundis, sloths, iguanas, land and sea turtles, crocodiles, and perhaps, for the fortunate, a tapir or maybe even a jaguar!
