

DINO RIDGE TOUR

AOI
Alpha Omega Institute

To Equip Yourself & Your Kids to
Stand Firm...Then Join:

Rocky Mountain Creation Fellowship!

Monthly Meeting – Every 2nd Friday at 7 pm
@ Littleton Baptist Church, 1400 W Caley
Ave in Littleton, CO
www.YoungEarth.org

Brian Mariani

970-523-9943

bmariani@discovercreation.org

For Even More Information
including a Video Presentation of
the Full Tour, Go To:

www.DiscoverCreation.org/DRTour

REMEMBER:

1. Ask Questions like "What's the Evidence?"
2. If there's Evidence of a Global Flood, then there's Evidence that The Bible is True including:
 - ~He is the Creator! ... But "all have sinned" (Rom 3:23)
 - ~"But God commendeth his love toward us, in that, while we were yet sinners, Christ died for us." (Rom 5:8)
 - "Believe on the Lord Jesus Christ, and thou shalt be saved" (Acts 16:31)

Station 1: Introduction

1. But Why Does It Matter?
 - ~Big Bang, Evolution, and Millions of Years are NOT "Proven" Science!
 - ~You can Trust the Bible!
 - ~Your Life Does Matter – You are created in the Image of God!
2. Scientists have to make Assumptions and interpret Evidence!
 - ~What's the Evidence?
 - ~Rocks have been Deposited & Eroded Quickly, Not Slowly!
 - ~Flat Contacts – No Erosion in between layers
 - ~Bent/Curved Rock Layers
 - ~Fossils Buried Quickly (Polystrate Fossils)
 - ~Steep Cliffs & Very Little Talus
 - ~Some of My Favorite Evidences for God & the Bible: www.DiscoverCreation.org/Evidence

Did God Really Say...?

Evidence for
a Flood!

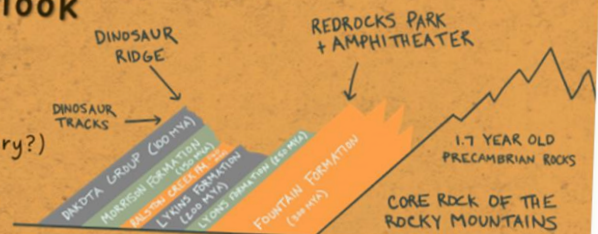

Station 2: Dinosaur Trackways

1. Worldwide Tendency of Trackways below Body Fossils
2. Mysterious Dinosaur Megatracksites or Freeways
 - ~Tracks have to be filled in quickly - Evidence of Rapid Deposition & Burial (*FLOOD!)
3. Many Large Bone Beds or Dinosaur Graveyards
 - ~Tend to be mostly one species w/ very few young dinosaurs.
 - ~Young Dinos likely couldn't keep up with adult herds fleeing rising tsunami flows!
 - ~25 Young Dinos in China Buried Quickly in Mud!

Station 3: Raptor Claw, Concretions, and Overlook

1. Colorado's First Raptor Track
 - ~Dinosaur to Bird Evolution - Improbable! (Likely Impossible?)
2. Concretions of Sand and Iron
 - ~Differential Erosion - Holes (Tafoni) in Sandstone Rock (Remember Dave's Story?)
 - ~Maybe less cemented pockets or bubbles?
3. What huge Earth-moving events had to happen to tilt the layers up so much?!?
 - ~Evidence of the Worldwide Flood! ... as well as:
 - ~The Great Denudation & The Great Unconformity!

Picture: <https://www.meredithfontana.com/post/dakota-hogback>

Station 4: Brontosaurus Bulges

1. A Dinosaur "Stampede" in Australia is actually Dinos being carried along in a Current of Water!
2. Back Footprints w/o Front Footprints - Possibly Swimming!!
3. Front Footprints w/o Back Footprints - Very Likely Swimming!!
4. And Again - the Tracks would have to fill in with mud quickly to be preserved!

Station 5: Dino Bone Bed!

1. Fossil Shells/Bones Smashed Up! → Evidence for the Flood!
2. Assumptions & Interpretations are necessary when talking about Fossils!
 - ~There is Good Reason to Doubt Evolution!
3. Soft Tissue in Dinosaurs (and other things) could not survive 65+ millions of years!
4. There is Evidence of Dinosaurs living among man in Cultures Worldwide!
