MEMORY VERSE

In the beginning was the Word, and the Word
was with God, and the Word was God.
The same was in the beginning with God.
All things were made by Him, and without Him
was not anything made that was made.

John 1: 1-3 (KJV)

As Christmas draws near, isn't it wonderful to know that the tiny baby in the manger, Jesus Christ, was God in human form. Not only was this child sent to save us from our sins, He was also our Creator (as John 1 says). That makes Christmas a time to really thank our God for His love. **THANK YOU JESUS!**

THAT "SIMPLE" CELL

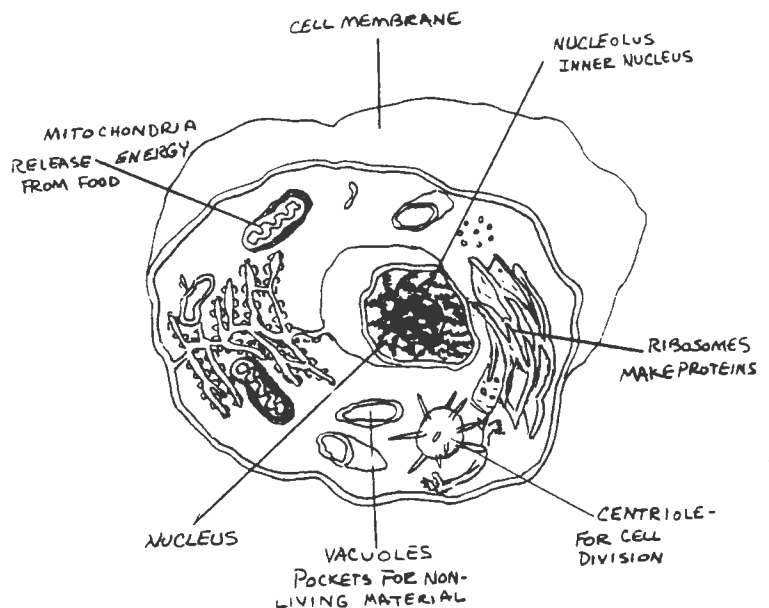

Evolution teaches that millions of years ago, somehow, just the right chemicals were all together in the right place and a "simple" living cell formed. This cell reproduced itself from the chemicals in the water around it, and from this one cell all the plants and animals on Earth evolved--all by chance and accident!

Before powerful microscopes were invented, people thought single-cells were "simple," and were little more than blobs of jelly. But now we can actually look inside these single cells and see that they are more complicated than a large city. In the center of the cell is the nucleus, which is a kind of library, with all the instructions needed to make everything in the cell work. There are twisted chains many miles long, called DNA, that are coded instructions to build an exact copy of the cell itself. There are mitochondria--(power-plants) that turn sugar and fats into energy. The Golgi apparatus sorts and packs proteins, and sends them to other parts

of the cell, or stores them. The ribosomes are like factories which use amino acids to make proteins. These proteins have to be arranged in a special way, not mixed up. There are also lysosomes, which act as garbage and recycling collectors. They recycle worn-out parts of the cell, and break down and destroy harmful matter. Within just a few hours a cell can make a perfect copy of itself. Amazing!

These are just a few of the thousands of things we can see working in the cell. Not so "simple" is it? If someone told you, "A computer just happened; it just built itself! No one planned or designed it!" you would think they were teasing. Yet this is what evolutionists think about life--it's here by chance and accident! Does it make sense that this fantastic cell just made itself? **Someone very mighty and smart must have designed and made living cells, and that Someone is God! God gave life to all living things!**

An adult body has about 60 trillion cells!

One of the first microscopes was made in the 17th century by an English scientist named Robert Hooke. He looked at a piece of cork and found it was made up of hundreds of little "boxes" or "rooms" that he named cells.

Why don't people like pigs playing basketball?

Because they hog the ball!

Joel Herbert (age 7)

ASK EUGENE

Dear Eugene,

I was thinking if we came from many different kinds of animals why aren't people still coming from them, and why haven't we changed into some other kind of animal like an elephant or something?

Love, Sarah E. & Brian C. Crone (Ind.,Ky.)

Dear Sarah & Brian,

How right you are! We don't see animals changing today into other animals do we? Has anybody seen a half-dog, half-cat lately? How about a half-horse, half-cow? A half-pig, half-duck? A half-man, half-elephant? No? Well don't feel bad. No one else has either. Those bones in the rock that we call fossils don't show any half animals either! God made each person and all living things after their own kind.

Love ya right back, Eugene

JESUS LOVES THE LITTLE CHILDREN
ALL THE CHILDREN OF THE WORLD
DON'T LET EVOLUTION BLOW YOUR MIND
GOD MADE US ALL AFTER OUR OWN KIND
JESUS LOVES THE LITTLE CHILDREN OF THE WORLD

Dear Eugene,

Scientists believe there is something called Evolution. Evolution is: One day, there was an explosion in space. When it blew up, it made all the planets. Then that means Creation is wrong, doesn't it? But we have no proof that evolution is true. Evolutionist believe first there was goo, goo changed to worm, worm changed to fish, fish changed to Ape, Ape changed to caveman, caveman changed to person. All the in-between animals, we have never found the bones to them. As you know, explosions destroy things, this explosion not. So we have proof that evolution is wrong. The evolutionists do not believe in God. There are a lot of people like this. Since we want everybody to go to heaven, there is a fight, a spiritual and physical fight. Nobody wants to believe that God is the creator, so a lot of people go to hell. Hell is a terrible place and we have

no idea what forever is. So do not worship nature or Satan. The devil loves it when you die and go to him.....So we should pray for them. And remember, **you do not want** to go to hades, so accept Jesus, and you will not go to hades. Good day to you.

Joel Herbert (age 7) Kennewick, Wa.

Dear Joel,

Couldn't have said it better myself. Evolution just isn't true. But we can believe in Jesus! Yep, yep, yep!

Good day to you too! Eugene
